

**NEW for 2023!**

# UP COUNTRY

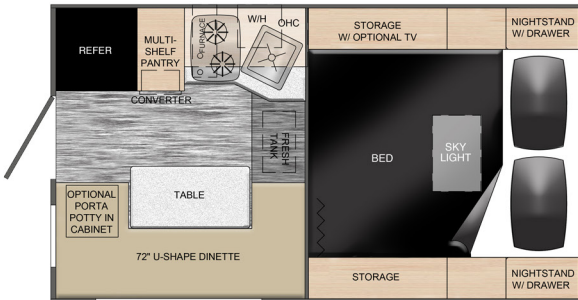

by **TLRV**

## A new twist on an old favorite.

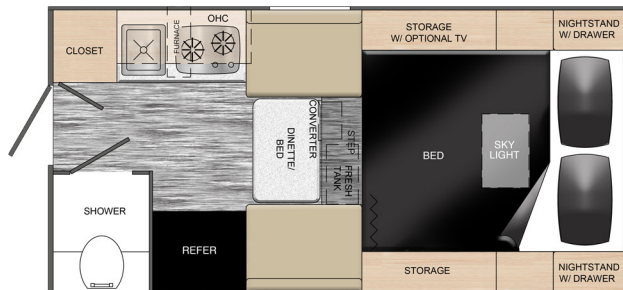

Starting with our two most popular floorplans, we have taken what great about them and made them even better. Our all-new laminated construction provides more structural strength while decreasing weight. A standard North/South bed means you don't have to sacrifice comfort to go Up Country.

North-South Bed Standard • Laminated Structure • 200W Solar Standard  
Redesigned Bed area cabinetry • On-Demand Water Heater
